# 1 | Key Features

## The Project

The focus of the project is to develop the land lot located at 73 Lockhart Street, Como 6152, Western Australia. This land lot is located within a local R20/30 area zoned for low to medium density residential use. The preparation of a design application featuring an apartment complex with a potential 2 townhouses and 12 residential apartments has been proposed.

## Project Requirements

Hartington Kew Pty Ltd is seeking to raise an initial \$9,300,000 in capital plus GST in a project specific Australian Proprietary Company. This is comprised of \$4,500,000 from institutional lenders, \$2,000,000 from individual Private & Premier Lenders, \$1,800,000 through Shareholding and the remaining \$1,000,000 through Preferential Equity Partners into Hartington Kew Pty Ltd. Please refer to your authorized representative or the SMATS Consortium Property Syndicate information brochure on the definition of these terms.

## Lender Eligibility

Participation in the development is restricted to Lenders who qualify as Wholesale/Accredited clients within the meaning of the Corporations Act. Lenders will need to supply a signed letter from their accountant verifying their status as a "Wholesale Client" as defined by the Corporations Act.

## Minimum Subscription

All applications for Private Lending in the development through an application must be for a minimum of \$50,000.

## Development Asset

The funds raised will be used to develop a proposed residential apartment complex at 73 Lockhart Street, Como 6152.

## Debt Financing

Hartington Kew Pty Ltd will source debt finance to undertake the development and construction for the Project.

### **Project Returns**

The loan interest rate is fixed for both Private (8% p.a.) and Premier Lenders (12%p.a.) who are beneficiaries under the Security Trust Deed which holds a registered charge over the land.

### **Lending Risks**

There are a number of factors that may lead to returns not being achieved, such as, but not limited to, the risks associated with lending to the development as outlined in section 7.

There is no guarantee the forecast return or any return will be achieved or maintained during the development of the Property. The lender however does have a loan secured over the land via a Loan Agreement and Security Trust Deed.

Lenders should fully consider the risks associated with participating in the development before submitting an application.

### **Developer and Builder**

Griffin Projects Group has been appointed as the Asset Development Manager. Griffin Projects Group will also provide consultation services including Project Management, Sales, and Marketing. A quality independent builder will be appointed as soon as development approval is received. Please note that Griffin Projects Group and SMATS Consortium will receive a fee for project management and licensing.

### **Term of the Development**

Estimated to be approximately 30 months from the release of this Private Lender Project Overview. As capital is required at different stages of the project, the term of any loan will be defined by the individual Loan Agreement.

### **Loan Interest & Principal Repayments**

Interest is accrued and paid with loan principal at the loan maturity date as defined by the individual loan agreement.

FIRST FLOOR PLAN

## Development Location

Given the recent successes of Parkview Como and Abode Como, this latest opportunity is Griffin Project Groups third development in the suburb of Como, WA. This area is the perfect fit for Griffins boutique development model, with a wide range of local amenities, education options and located only 8km from the Perth CBD.

The Lucida Como site is located within the 'Casey Quarter' development area of the Canning Bridge Activity Centre Plan. This government initiative has been established as a foundation for the future of the local area with the intent to increase the mix of residential, civic, office, retail and entertainment opportunities against the backdrop of the Swan and Canning Rivers. The Casey Quarter zoning allows Griffin to move ahead with its intended plan of a four storey, 12 apartments building fronted by two separate three-bedroom townhouses.

Como offers a modern, urban lifestyle with a collection of beautiful parks and reserves, cafes, bars and restaurants, a variety of shopping options and the international standard 27-hole Collier Park Golf Course. Students are well catered for with a range of primary and secondary schooling options, including the prestigious, Penrhos Private Girls School & Aquinas Catholic Boys School and the award-winning Curtin University located only 7 minutes east on Manning Road.

The suburb is easily accessible via the Kwinana Freeway and several other arterial roads in addition to being well-serviced with public transport. The Canning Bridge Train Station is located just 700m from the Lockhart Street site and bus stops a short 200m walk.

# 5 | The Structure

## Structure

The project development is structured within a Special Purpose Australian Proprietary Limited Debt Company with a Director, underpinned by a Property Unit Trust. The Property Unit Trust holds the land title. This project is issued under the SMATS Consortium AFSL Wholesale Licence No. 480476.

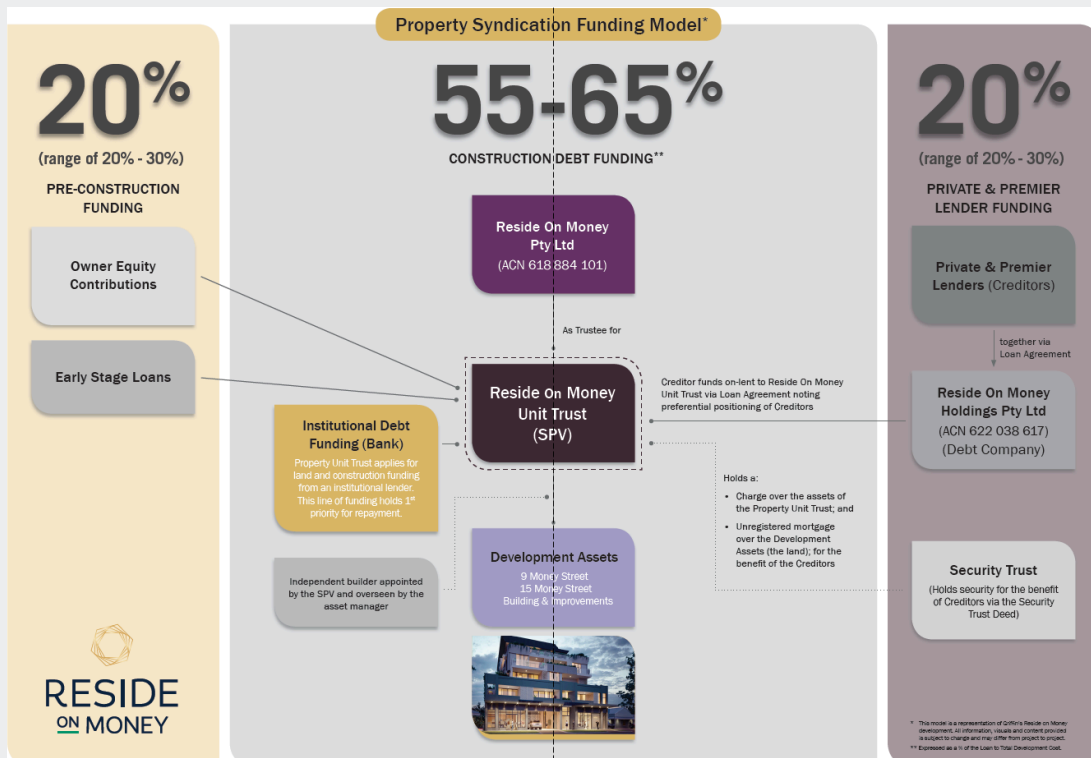

Private Lenders place funds within a legal loan structure to the Special Purpose Debt Company, with the Loan Agreement outlining the terms and conditions of the transaction. The Special Purpose Debt Company on-lends the funds to the Property Unit Trust via a secured lending facility, for the purposes of completing the development.

Upon completion of the project, the Property Unit Trust distributes loan funds, back to the Special Purpose Debt Company, who repays the Private Debt Lenders.

## Funding and Debt

The project will be funded through raising equity, via the above structure, and by taking a debt facility for the construction, to be obtained via institutional lenders. The institutional lender will be granted first ranking registered mortgage over the property held within the Property Unit Trust.

## 7 | Key Risks

By their very nature all projects involve some level of risk. Before deciding whether to subscribe, a potential participant should consider the following risks, which may affect the return you expect to generate from your participation. If you are in doubt as to the course you should follow, you should seek advice from a professional adviser. We also recommend that you consult a tax adviser to fully consider the relevant taxation implications.

Some of these factors can be mitigated by the use of safeguards and appropriate commercial action. However, many are outside the control of the Company and cannot be mitigated. Some of the risks associated with participating are set out below.

### **Market Risk**

There is a risk that the property market drops or weakens. This could mean that the rate of pre-sales is slow or we may not achieve the prices we expect, based on our market research and professional valuations. This could mean the loss of some or all of your money.

### **Borrowing Risk**

The developer may look to seek funding from a bank or senior lender in addition to this capital raising if there is a shortfall in funds. It is possible the lending environment for development finance could be restrictive, meaning the money to construct the development may not be immediately available. This could mean the loss of some or all of your money.

This risk will be managed by not starting the subdivision until we have sourced the appropriate amount of financing. Should there be a delay, it could be possible to repay your loan by way of a further capital raising round, in which you would have an option to participate.

### **Capital Risk**

Your participation by way of loan will pay you a preferential return, paid at the completion of the loan term. If sufficient pre-sales are not available at the end of the project, and not enough funding can be arranged via financing the remaining land lots, there is a risk and it is possible that not enough money will be returned from sales to repay lenders in full. You could lose some or all of your money.

### **Force Majeure**

Force Majeure events, economic and political instability, which are events outside the control of the Licensee or Company may occur and adversely affect the returns to participants.

### **Terrorism**

Terrorist activity may affect the local economy.

## **Tax and Finance**

Taxes, including GST, and changes to finance lending conditions may reduce the saleability of the end product in a way not envisaged in the profit forecast assumptions and this may ultimately reduce returns to participants.

Australian tax laws are constantly changing and taxation reform proposals may affect participants. If applicants are uncertain about the taxation effects of their participation they should seek their own taxation advice.

## **Legal**

Changes in State or Federal legislation may affect the return to participants. There may be a risk arising in relation to an adverse change in government policies or legislation in respect of land development.

## **Project Specific Risk**

### **Development Approval**

Development Approval is a legal document that provides permission for specified use or development to occur on a particular piece of land. It is obtained by submitting a development application by following a set of pre-determined design guidelines and policies. Whilst some projects may be purchased with an approved development application, Development Approval may be a requirement and this should be taken in to consideration.

### **Delays**

There may be delays in obtaining planning and development approvals from all relevant authorities or development approvals may not be granted at all. Any delay in obtaining relevant development approvals or in making sales will have a negative impact on returns which might otherwise be achieved.

The Project period may exceed the anticipated time resulting in the lots being uneconomic to develop or less profitable to develop, resulting in lower returns.

### **Cost Overruns**

There is a risk that the civil works contract sum may vary from the estimate in the financial projections due to escalation, design development changes or issues, industrial relations issues or latent site conditions.

There is also a risk that, for whatever reason, the contractor appointed is not able to deliver the project on time or on budget or that there are cost overruns. The development team has extensive experience in negotiating and managing construction contracts similar to the contract required for this development.

### **Liquidity**

There will be no established secondary market for the sale of shares during the expected term of your loan.
